

eNebula Solutions guarantees the impossibility of exit scam in the ICOMMUNITY LABS TOKEN Smart Contract

This document confirms that the smart contracts of iCommunity Labs token project has been verified by impossibility scam exits.

The audit was carried out by the blockchain auditor team of eNebula Solutions.

The eNebula team warns that this contract was checked by the “pre-audit” service, which means that only the possibility of scam was checked. The contract code has not been investigated for third-party access, mathematical errors, and more. In this case, the eNebula team is not responsible for the loss of investors’ funds in any other case, except for the exit scam.
